EMC & Inductive Solutions

Technical Sales Professional United Kingdom

Your job

To keep pace with demand, the United Kingdom based technical sales force has several openings across the United Kingdom. Working from a home office the role involves identifying new prospects, developing existing accounts, winning new orders and delivering an exceptional standard of service.

Your professional background

This position should appeal to highly motivated 'Field Sales Engineers' or 'Internal Sales' / 'Account Executives', or 'Field Application Engineers' whose next critical career step lies in taking full sales responsibility for a territory of their own. We are equally interested in hearing from those with an Electronics qualification who want the opportunity to start and develop a career in Technical Sales. Training and development is provided in all cases.

Your opportunities

You will take over a job with responsibility in a truly future-oriented industry. Supported by a qualified internal administration, you will have the opportunity to participate actively in the growth of our company. We will offer you a salary that is based on performance and oriented to success, along with the benefits you would expect from a modern company.

Your application

We look forward to receiving your application. Please indicate your earliest possible entry date and your wage expectations.
